Dear Colleagues,

Greetings from the Society of Fetal Medicine (SFM), Northeast Chapter.

It is our proud privilege to welcome you to the **3<sup>rd</sup> Annual Conference of the SFM Northeast Chapter**, scheduled to be held from **10<sup>th</sup> to 12<sup>th</sup> April 2026 at Hotel Radisson Blu, Guwahati, Assam**.

In alignment with the vision of the Society of Fetal Medicine to provide every mother and child the opportunity for an optimal outcome, our chapter has consistently strived to advance the practice of fetal medicine in this region through a variety of academic initiatives. The theme of this year's conference, **"Everyday Approach to Fetal Anomalies,"** reflects our commitment to practical, protocol-based learning with the latest updates that can be seamlessly incorporated into daily clinical practice.

We are truly honoured to host, for the very first time in our region, the grandmaster and legend of fetal medicine, **Professor Rabih Chaoui from Berlin, Germany**. Internationally acclaimed for his pioneering work, numerous textbooks, and seminal publications on fetal cardiology, 3D and 4D ultrasound, and the identification of key markers and signs for fetal anomalies, Professor Chaoui is renowned for his exceptional teaching style that simplifies complex concepts and makes them easily understandable and memorable.

He will be joined by a galaxy of distinguished national faculty in our conference. The scientific programme has been meticulously curated to cover a comprehensive range of topics spanning all fetal systems, from basics to advanced concepts. Several hands-on workshops and live demonstrations have been planned to provide delegates with first-hand experience in protocol-based fetal scanning, along with valuable tips and techniques to optimize the use of ultrasound equipment, guided by some of the finest teachers in the field.

The Northeast region of India, comprising the **seven sister states**—Assam, Meghalaya, Tripura, Nagaland, Manipur, Mizoram, and Arunachal Pradesh—and the **one brother state**, Sikkim, is renowned for its mesmerizing scenic beauty, rich cultural heritage, warm hospitality, and a unique blend of ethnic diversity, making it a true paradise for tourists.

The conference venue, **Guwahati in Assam**, is the largest city in the region and enjoys excellent connectivity with the rest of the country. **April is an ideal time to visit**, as Assam prepares to welcome the Assamese New Year with its biggest and most vibrant festival, **Rongali Bihu**, celebrated immediately after the conference.

We cordially invite you to register for this landmark academic event in our region and enhance your skills and approach to the accurate and confident diagnosis of fetal anomalies. Immerse yourself in pathbreaking scientific sessions set against a backdrop of natural beauty and festive celebrations, and avail of this **golden opportunity to learn directly from the Grandmaster of fetal medicine**, along with eminent national faculty. Let us come together to make this conference a truly enriching and memorable experience for fetal medicine practitioners across the region.

# Abstract Submission Guidelines

Dear Colleague,

Society of Fetal Medicine encourages participation of all members through presentations at all its conferences, congresses and webinars. SFM NorthEast Chapter Annual Conference 2026 is an excellent opportunity for you to present before the entire audience. This can be done if your abstract of original research/ work and case reports is selected for oral or poster presentation.

**Submit Your Abstract Today. Please do not miss the Deadlines  
Last Date of Submission 30<sup>th</sup> January, 2025.**

## Abstract Submission Guidance

- All abstracts have to be sent to **[sfmne2026@gmail.com](mailto:sfmne2026@gmail.com)**
- There are two categories:
  - Oral Paper Presentation
  - Electronic Poster
- Abstracts must be submitted in English,
- Each abstract should consist of a “formal” word file.
- All abstracts will be anonymised and peer reviewed by an independent set of judges.
- All the presenting authors need to register. In case your abstract is not accepted and you don't want to attend the conference, your registration will be refunded.
- The abstract body should be limited to 300 words and 15 words for the title of your submission.
- The title should be entered in CAPITAL LETTERS. Please do not put your title in quotation marks. Please do not use formatting tags in the title. Please do not add a full stop ('.') at the end of the title.
- The abstract must not contain any graphics, tables, pictures, or other types of figures.
- Abstracts should be structured using the following subdivision:
  - Introduction/ Background
  - Material and Methods
  - Results
  - Conclusions
  - Keywords
  - References (not exceeding 10)
- Authors must not include already published data
- Up to 8 co-authors may be included.
- If accepted for an oral presentation, the author will be able to make the presentation in front of a live audience at the Congress. The date and other details of the session will be sent to the author in a separate email.

1. If accepted for a poster presentation, the author will be required to submit the poster as a single ppt. slide in an electronic format in advance of the Congress. Poster authors will be sent detailed guidance on how to do this, once their abstract is accepted. Posters will be made available electronically for delegates to access during the Congress.

2. By submitting an abstract, you authorize Society of Fetal Medicine to record your presentation (if accepted). All or a portion of presentations, discussion, question and answer, comments, documents and presentation slides presented will be recorded and may be selected for inclusion on the event platform, website, On Demand web portal for members, YouTube & social media. These may also be used for promotional purposes.

### **Abstract Topics and Presentation Styles**
