Dear Colleagues,

Greetings from the Society of Fetal Medicine (SFM), Northeast Chapter.

It is our proud privilege to welcome you to the **3rd Annual Conference of the SFM Northeast Chapter**, scheduled to be held from **10th to 12th April 2026 at Hotel Radisson Blu, Guwahati, Assam**.

In alignment with the vision of the Society of Fetal Medicine to provide every mother and child the opportunity for an optimal outcome, our chapter has consistently strived to advance the practice of fetal medicine in this region through a variety of academic initiatives. The theme of this year's conference, **"Everyday Approach to Fetal Anomalies,"** reflects our commitment to practical, protocol-based learning with the latest updates that can be seamlessly incorporated into daily clinical practice.

We are truly honoured to host, for the very first time in our region, the grandmaster and legend of fetal medicine, **Professor Rabih Chaoui from Berlin, Germany**. Internationally acclaimed for his pioneering work, numerous textbooks, and seminal publications on fetal cardiology, 3D and 4D ultrasound, and the identification of key markers and signs for fetal anomalies, Professor Chaoui is renowned for his exceptional teaching style that simplifies complex concepts and makes them easily understandable and memorable.

He will be joined by a galaxy of distinguished national faculty in our conference. The scientific programme has been meticulously curated to cover a comprehensive range of topics spanning all fetal systems, from basics to advanced concepts. Several hands-on workshops and live demonstrations have been planned to provide delegates with first-hand experience in protocol-based fetal scanning, along with valuable tips and techniques to optimize the use of ultrasound equipment, guided by some of the finest teachers in the field.

The Northeast region of India, comprising the **seven sister states**—Assam, Meghalaya, Tripura, Nagaland, Manipur, Mizoram, and Arunachal Pradesh—and the **one brother state**, Sikkim, is renowned for its mesmerizing scenic beauty, rich cultural heritage, warm hospitality, and a unique blend of ethnic diversity, making it a true paradise for tourists.

The conference venue, **Guwahati in Assam**, is the largest city in the region and enjoys excellent connectivity with the rest of the country. **April is an ideal time to visit**, as Assam prepares to welcome the Assamese New Year with its biggest and most vibrant festival, **Rongali Bihu**, celebrated immediately after the conference.

We cordially invite you to register for this landmark academic event in our region and enhance your skills and approach to the accurate and confident diagnosis of fetal anomalies. Immerse yourself in pathbreaking scientific sessions set against a backdrop of natural beauty and festive celebrations, and avail of this **golden opportunity to learn directly from the Grandmaster of fetal medicine**, along with eminent national faculty. Let us come together to make this conference a truly enriching and memorable experience for fetal medicine practitioners across the region.
